

Soling 1 Meter Forward Bulkhead - Addition

This bulkhead increases both the strength of the deck and rigidity of the bow to hold its' shape.

Construction notes:

- material - Midwest; birch plywood 1/4"
- access hole - optional (left closed may keep boat from sinking if hit)
- setback - 10-5/8" from bow
- tapered edges - 0.1" toward bow with less tapering on top and bottom
- waterproofing - Jet (or equivalent) thin set
- gluing - Epoxy or Jet
- over all dimensions - 6.15"x4.9"x0.25"

Width = 6.15"

Height 4.9"
